Re: Updated regulations concerning luminescent indicators in Kingdom Halls

Dear Brothers:

We are writing about the regulations applicable to the luminescent signs found in our places of worship. In accord with Royal Decree (Real Decreto) 513/2017, the maintenance coordinator or maintenance committee should include an annual inspection of the luminescent indicators in the preventive maintenance program. Please verify that they are less than ten years old or that the expiration date has not been exceeded. In case there is no maintenance schedule for your Hall, it would be appropriate to include this checkup in a list of periodic tasks. In the annual inspection, it should be confirmed that each indicator is located in its proper place, that all are still luminescent in the dark and are properly fixed to the wall. If any deficiency is observed in these respects, replacements or repairs should be made. Thank you very much for your fine work in keeping our places of worship in good condition.

Please receive warm greetings and Christian love.

Your brothers,

*Testigos Cristianos de Jehová*
