Mr. Roy D. Goodrich,
Oakland,
Maryland.

Dear Brother:

Thank you for the interesting letter and good report. We certainly rejoice with you in the way that the message has been going forth and appreciate your good suggestions.

As to whether to sell the sets of 10 or \$1.98 combination with the Golden Age, we would suggest the latter looking at the matter from the standpoint of putting the message now due into the hands of the people. Of course, you could canvass for the combination of 12 books but we believe that the newer publications with the illustrations are much more likely to be read than the "Studies", the message is that which is due to be given to the people and more easily understood by the general average .

Yours for the Kingdom,

Colporteur Department.
