Dears Brothers”

We have in hand your letter dated August 8, 2007 . We asked Brother [redacted] if there where any other instances of sexual activity with a minor besides that already confessed. He assured us that there had not been any other instances of this conduct in his past.

We then asked him have you engaged in conduct similar to that with Sister [redacted] , with any other minor, again he assured us that there was no other conduct like this in his past.

Again we wish to thank you for your help in this matter.
